- 9 Cast Saws & Blades**
- 10 Miscellaneous Supplies**
- 15 Patient Supplies**

PRICES:

All prices are F.O.B. Myrdal Orthopedic Technologies location, unless otherwise specified. Taxes are not included in our pricing and will be added to your invoice if applicable. Prices will be provided in country of origin and are **subject to change without notice**. Custom devices supplied by Myrdal Orthopedic Technologies are zero rated for tax purposes if being supplied from a physician's prescription. Applicable taxes in region delivered are the responsibility of the customer. VISA & Master Cards are accepted.

WARRANTY/REPAIRS:

Custom orthopedic devices fabricated completely (components included) by Myrdal Orthopedic Technologies (MOT) are warranted for a period of three months from the delivery date. Articles sent in for non-warranty repair are covered for a period of two months from the repair date. MOT will deal with any manufacturer's warranty on products supplied by MOT. Any unauthorized repairs, deviation from directions or modifications will void the manufacturer's warranty. Please provide all serial numbers, purchase date, and our invoice number when making a claim. **Note:** All orthopedic appliances sold by MOT are the ultimate responsibility of the person or persons, proprietorship or corporation that supplies the product to the end user. MOT will accept no liable responsibilities for products being dispensed to the aforementioned end user.

NEW ACCOUNTS:

All orders will be shipped C.O.D. unless credit has been established. To open an account with us please supply three trade credit references and the name and address of your financial institution. You will be notified as to your credit status as soon as possible.

TERMS:

Net 30 days, 1 ½ % per month service charge on overdue accounts will be charged. Please refer to our invoice number with your payment remittance. Credit Card orders can, at the discretion of MOT be subject to a 2% handling charge unless a credit card purchase is indicated at the time of order. While a purchase order number is not necessary, their use promotes the capability of accurate tracking shipments and are preferred.

RETURNS:

Authorization for return of regular stock items in saleable condition must be requested within 2 (Two) days of receipt of order. Freight expense will be the customer's responsibility unless MOT has made an error. Special order items are not returnable unless we have made an error in your specifications. A copy of our invoice or packing slip must accompany all returns. A re-stocking charge of 25% may apply if deemed necessary by MOT.

CLAIMS FOR DAMAGES:

These are usually the responsibility of the delivering carrier. Make sure to save shipping cartons and packing materials for inspection. Please do not return merchandise but notify us (not later than 2 (Two) days from receipt of order), and we will provide you with all the necessary procedures to make a damage claim.

FOREIGN ACCOUNTS:

Confirmed irrevocable Letter of Credit, Bank Draft, or payment in full in advance. All orders will be shipped (only) after foreign checks have cleared the bank.

MINIMUM ORDER:

Our minimum order discretion is Seventy Five dollars. (\$ 75.00)

Myrdal Orthopedic Technologies (MOT) is pleased to be able to provide you with quality products for your prosthetic and orthotic fabrication requirements. Our products are used on a daily basis in many prosthetic and orthotic facilities and have proven themselves internationally.

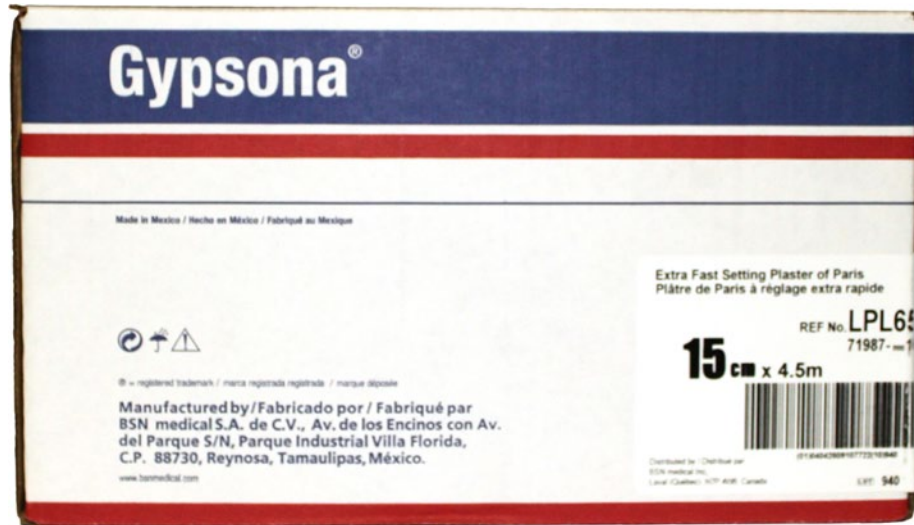

Please be sure to implement all safety equipment and procedures when using any of your equipment, failure to do so may result in a preventable injury.

Delta-Cast® Soft

- ▶ Comparable to 3M Soft Cast™ and Cellacast® Active
- ▶ Delta Cast Soft is a synthetic casting material that provides excellent conformability around the instep and Calcaneus as well as bony prominences.
- ▶ Excellent memory
- ▶ Easy removal from patient

SKU	Size	Rolls/Box	UOM
DELTAISOFT2	5 cm x 3.6 m	10	Box
DELTAISOFT3	7.5 cm x 3.6 m	10	Box
DELTAISOFT4	10 cm x 3.6 m	10	Box

Delta-Dry®

- ▶ Delta-Dry®'s unique patented technology outperforms other water resistant cast padding, making Delta-Dry® the best choice for clinicians and a more convenient solution for their patients over traditional cast padding.
- ▶ Allows patients to shower, swim and bathe
- ▶ No special tools are needed for application or removal
- ▶ Enables patient to have increased comfort and protection
- ▶ Easy to apply
- ▶ Better long term water resistance
- ▶ Offers more under cast protection
- ▶ Eliminates the need for stockinette

SKU	Size	Rolls/Box	UOM
DELTAISOFT2	2" x 2.4 m	12	Box
DELTAISOFT3	3" x 2.4 m	12	Box
DELTAISOFT4	4" x 2.4 m	12	Box

IMPORTANT: These products have been tested to assure conformance to certain quality control standards. However since the manufacturer has no control over actual application, no warranty is expressed or implied regarding the results to be obtained from the use thereof. User must determine suitability of these products for the intended application and assume all risk and liability in connection therewith.

Casting – Synthetic

Delta-Cast® Conformable

- ▶ Molds like plaster even to difficult body contours.
- ▶ Excellent conformability and Lamination
- ▶ 3 - 5 minute set time
- ▶ Fiberglass-free
- ▶ Soft edges
- ▶ Smooth finish
- ▶ White

SKU	Size	Rolls/Box	UOM
DELTACC2	5 cm x 3.6 m	10	Box
DELTACC3	7.5 cm x 3.6 m	10	Box
DELTACC4	10 cm x 3.6 m	10	Box
DELTACC5	12.5 cm x 3.6 m	10	Box

Delta-Cast® Elite

- ▶ Delta-Cast® Elite is a polyester cast tape that offers strength and durability. It features extensible yarns that provide superior molding capabilities and a smooth cast surface that improves fit and patient comfort. Used when rigidity and radiolucency are critical.
- ▶ Soft edges
- ▶ Radiolucent
- ▶ Excellent conformability
- ▶ Less dust than fiberglass
- ▶ Smooth cast finish
- ▶ Consistent 3 - 5 minute set-time
- ▶ White

Surgical Tubing

- ▶ This latex tubing has a heavy wall and is common to the industry.
- ▶ Often used as a cut off strip when casting for Orthoses and or Prostheses.
- ▶ While some labs use this tubing for their vacuum systems it is not recommended as there are better options available
- ▶ Dimensions - 1/4" ID / 1/8" Wall

SKU	Description	UOM
SURGTUBE1418	Surgical Tubing	Foot

IMPORTANT: These products have been tested to assure conformance to certain quality control standards. However since the manufacturer has no control over actual application, no warranty is expressed or implied regarding the results to be obtained from the use thereof. User must determine suitability of these products for the intended application and assume all risk and liability in connection therewith.

Miscellaneous Supplies

Square End Mixing Sticks

- ▶ Square end aids in effective mixing of material at the bottom of the container.
- ▶ 500 per box

SKU	Description	UOM
SQEND	Square End Mixing Sticks	Box

Indelible Pencils

- ▶ Since indelible leads react with moisture, it is best to store indelible pencils in a dry place (e.g., Zip-Lock bag) so that the leads do not absorb moisture, causing them to become soft and to wear more quickly.
- ▶ High quality Veritas brand pencil
- ▶ Can be purchased individually

SKU	Description	UOM
IPPURP	Indelible Pencil - Purple	Each
IPRED	Indelible Pencil - Red	Each

Lister Bandage Scissors

- ▶ Stainless Steel

SKU	Size	UOM
BSCISSOR5	5-1/2" Angled	Each
BSCISSOR7	7-1/4" Angled	Each

Patient Wear Frequently Asked Questions

Here are answers to questions we hear most often from patients and our medical professional customers.

HOW IS IT ANTIMICROBIAL AND HOW LONG DOES THE GARMENT MAINTAIN THAT PROPERTY?

Antimicrobial treatments limit the spread of bacteria which helps eliminate infections and the spreading of germs. All Patient-Wear and Wicks garments are treated with Silpure® – a product containing silver which was introduced in 2005. Tests show that even after countless machine washes, Silpure® continues to fight bacteria. For most garments, this means lifetime protection.

WHAT IS THE ADVANTAGE OF MOISTURE WICKING MATERIAL?

Moisture Wicking refers to the ability of a fabric to move moisture (sweat) away from the skin to the outer layer of fabric where it can evaporate more easily thus helping to keep the skin dry.

DO I NEED TO CHECK WITH MY HEALTH CARE PROVIDER BEFORE PURCHASING?

The response from the health care community to Patient-Wear has been extremely positive. It is advocated and currently in use at some of the most respected hospitals in the Country. Not only does it save time during appointments, it also makes the overall patient experience more comfortable.

CAN I WEAR PATIENT-WEAR RIGHT AFTER SURGERY?

Yes, in fact that was one of the key design considerations. Patient-Wear can be worn after most procedures, whether they are inpatient or outpatient. The easy opening seams allow health care professionals to examine and care for the injured area without exposing other parts of the body. It is a welcome alternative to the traditional hospital gown. It is especially helpful when trying to dress and undress with the limited mobility experienced after most surgeries.

HOW DO YOU WASH IT?

Wash separately in warm water and tumble dry. When washing Patient-Wear, make certain the velcro/felt closures are securely closed. Do not wash with cottons.

WHAT MATERIAL IS THE PRODUCT MADE OF?

Patient-Wear garments are made with 100% flat back mesh polyester.

DOES THE VELCRO LAST?

Yes, we tested the durability on 14 prototypes and found the best combination of felt and Velcro.

WHAT COLORS ARE AVAILABLE?

Patient-Wear is currently available in navy and maroon. We will be introducing additional color sets later this year.

WHAT SIZES ARE AVAILABLE?

Patient-Wear is unisex and is available from XS to 5XL.

QUALITY SERVICE AND PRODUCTS – GUARANTEED WITH CONFIDENCE.
